

Remote ID Labeling for Skydio Drones

10mm x 38mm
0.39in x 1.50in

Print this template at 100% scale, cut out and securely affix the Remote ID Compliance Label to your drone. This will fit on the S2, S2+ and X2E. Instructions for placement on each type of drone are outlined below.

S2/ S2+

ONLY affix the label on the bottom side of drone, along either of the front two arms.

DO NOT affix the label anywhere else as it may affect the performance of your drone.

FAA STANDARD
REMOTE ID COMPLIANT

X2E

ONLY affix the label on the right side of the drone, on body beside the front-right arm.
Note: this is specifically opposite the side with the SD card slots.

DO NOT affix the label anywhere else as it may affect the performance of your drone. Do not cover vents.

FAA STANDARD
REMOTE ID COMPLIANT
